

## Program

### Land and Water Data Forum

Tuesday 9 May, 2017

7.30am to 10:30am

Department of Agriculture and Food WA – South Perth Theatrette

Please Register to attend with Tim Overheu on 9892 8444 or email [landuse.planning@agric.wa.gov.au](mailto:landuse.planning@agric.wa.gov.au)

As part of the “Perth Big Data Week” the Department of Agriculture and Food (DAFWA) is holding this event to promote the land and water information amassed by DAFWA and collaborators over the last 50 years, and newly available platforms for public viewing and downloads. We’ll introduce you to the kinds of information available, and illustrate their value in agriculture and land use planning, for starters. Come talk with us about your soil and water information needs!

The event will start with a light breakfast and chat, followed by an informal introduction and a series of short presentations, capped off by a discussion with plenty of opportunity for questions. Short sessions on specialist topics will follow, please contact Tim Overheu if interested in attending and/or proposing topics for discussion.

Time	Topic	Who
7:30am	<b>Welcome, buffet breakfast and refreshments</b>	
8:10am	<i>Forum opening and welcome from DAFWA</i>	Tim Overheu
	<b>Land and Water Information, unearthed!</b>	
8:20am	• Data feeds WA’s growing agriculture	Richard George
8:45am	• <i>Making DAFWA land information useful &amp; accessible</i>	Dennis van Gool / Peter Tille
9:10am	• <i>(e)Connecting the dots between diverse datasets to support growers</i>	Fiona Evans
9:30am	• <i>Turning data into information for land use planning</i>	Angela Stuart-Street
9:50am	<b>End of main event.</b>	
10:00am	<b>Topical &amp; technical discussions – warts ‘n all</b> <i>Topics from the floor - primers may include: data collection, data use, needs, future focus.</i>	Technical discussions sessions

Displays: Sand box, NRInfo, Posters of datasets and info available.
